CLEAN INDIA

Shreya. 9A
15

Clean India, "oh my queen India"
Keeping our India clean and green,
Makes a bliss in hearts of seen.
Making our ways filled with wastes,
Creates one to be depressed.

I

Green India, "oh my godly India"
Thou are praised to be a great,
To fulfill desires of our heart.
Nature is the part in our lives,
That brings peace and harmony.

Godly India, "oh my great India"
Being thou act like a mother,
For every creature.
Making thy presence clean and neat,
Is a precious pearl of life.

Green India "oh my faithful India"
You are one who gave freedom for life,
But covered with dirt of environment.
Perhaps, gave me one more breath,
To keep thee clean and neat.

'oh my India' clean and green India,
who makes my future bright.
Lovely India, Godly India.
Keeping you green and neat,
is nothing than other great work,
in nature to make my nation thrive.
'oh my India' my future India.

FIRST

Future India, Clean & Green

11

Clean and green,
Is the India dreamt by the father,
is the India dreamt by the nation.
Although we slept,
from dawn to dusk
We were meant to be green,
As future is clean.

Though minister's made laws,
it's the nation to work.
Although it's hard,
it's not so bad
because we were meant to be green,
As future is clean.

It's the future,
It's the mystery.
To make it be,
is to be started from history.
So that the nation's dreams,
comes in a reality.

Because future India,
is clean and green.
Because we were meant to be green,
As future is clean.

POETRY WRITING

Future India clean and Green India

Future clean India is a theme
For the conservation of nature to clean
The mother Earth provides us resource
But the human misuses and that's the cause

For the development of clean & green India
For everyone should have the responsible to clean
'For we know that
Cleanliness is next to Godliness
Means that cleaning is next to godliness
If the surroundings is clean
we have interest to be clean
Our mind get nourished and refreshed

For that government should make a strict law
To conserve the nature to clean
and make the surrounding tidy
For I promise to clean my surroundings
And make the public so to do
